

Electric Motor Design Engineer

Would you like to have the freedom of thought? This is an exciting opportunity to work with a talented group of professionals committed to provide an outstanding product to our customers. We are looking for an enthusiastic Electric Motor Design Engineer. Reuland Electric is an industry leader with the highest quality product in electric motor manufacturing.

As this role is the critical link between great design and what's possible in terms of manufacturing, it requires excellent technical, written and verbal communication skills.

Are you curious about our company? What we do? Give us a call to find out. We would be happy to discuss the job details further (626) 854-5170.

We would like to find out a bit more about you too. Please submit your resume and cover letter describing previous experience / knowledge to hr-ca@reuland.com / 626-270-4469 Attn: Mariela Martinez.

All responses treated confidentially.
