

# CNC Machinists

**\$\$ Sign-On Bonus \$\$**

We are searching for machinists for both 1<sup>st</sup> and 2<sup>nd</sup> shifts.

The CNC Machinist will study blueprint or sketches to determine dimensions, tolerances, sequence of operations and set-up requirements.

Applies good technical practices to care for and prevent damage to machining and measuring equipment.

Considerable knowledge of the machining qualities, properties and uses of various metals such as aluminum, steel and stainless steel.

We offer a competitive benefits package.

Applications available for download at [www.reuland.com](http://www.reuland.com) / Employment Tab or email your resume to [hr-ca@reuland.com](mailto:hr-ca@reuland.com).

Apply today for immediate consideration.
