

Part-Time Machinist needed

We are seeking Machinists to join our 1st and 2nd shifts.

Conventional Machinist
CNC Lathe Machinist
Precision Grinder
CNC Mill Trainee

Do you enjoy learning new things and take pride in your work?

You will find Reuland is the most flexible motor manufacturer in the world. Our flexibility in design and tooling production capabilities are what makes Reuland a premier motor manufacturer.

Reuland houses its own Pattern Shop or foundry tooling department. Again, it's with this flexibility in design and tooling production capabilities that makes Reuland a premier motor manufacturer.

We utilize CNC machining centers to process various motor part components. This allows us to efficiently and with precision, meet exacting customer specifications and production design processing tolerances.

Apply today for immediate consideration.
